Dear, Sir/Madam.

About

Looking to my studying journey, I'm in the Computer Science field. Honestly, I eventually love this career as well. Moreover, I always do my really good stuff about web development as hard-working and more learning.

Education History

High school 2017 - 2020

Hun Sen Kohthom High School

- Pass State Exam (BacII) 2020

Present, Sophomore at RUPP in ITE 2021-2022

Really Great University

- Invented some projects in web development
- Learning Data structure and Algorithm

Tux Global Institute

Technology Development Institute

- Learning web/app development, UX/UI design etc.
- Do every single projects after end of each course

Experience

- Development and deployment web/app project which performs as LinkedIn with the team
- Self Development class (soft skill)
- UX/UI design that working on user research

Programming Languages

Experience in development with languages such as C, C++, Flutter, HTML, CSS, Javascript, basic Java framework(Spring boot), and framework angular 13.

Languages

- Khmer
- English
